

Pico's Procurement team comprises experienced individuals who work with clients to determine the most desirable makes, models, and technology best suited to their infrastructure configuration, latency needs and trading profile. Our experienced global staff are connected to the global distribution, supply chain and logistics channels with extensive experience and relationships with the IT vendor market.

## BENEFITS

- Time-to-Market
- Cost Savings
- Latest Technology
- Subject Matter Expertise
- Engineering Excellence
- Lab Environment Services
- Engaged Client Service & Support

Pico offers clients **Procurement-as-a-Service** providing flexible equipment use and purchase options worldwide. The combination of our official **Value-Added-Reseller** (VAR) status, our Procurement teams' expertise and our Intellihands staff ensures procured equipment typically arrives within two to four weeks\* of order and is racked within one to three days of equipment receipt.

*\*Order time frame is subject to equipment availability*
